

Communication Plan

Date	02 July 2026
Team ID	
Project Name	Rising Waters – A Machine Learning Approach to Flood Prediction
Maximum Marks	1 Mark

Communication Plan

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the Rising Waters project lifecycle, including how updates, issues, and feedback were managed.

S.N o	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	WhatsApp / Google Meet	Lakshmi Lathish Pasupuleti & Lokasree Ranga Priya Duddu	Quick sync on blockers and daily progress
2	Progress Update	Weekly	Email + shared doc	Lakshmi Lathish Pasupuleti & Lokasree Ranga Priya Duddu	Review sprint progress against the Project Planning backlog
3	Issue / Bug Discussion	As Needed	GitHub Issues / WhatsApp	Lakshmi Lathish Pasupuleti & Lokasree Ranga Priya Duddu	Resolve blockers in model training, Flask routes, or deployment configs
4	Stakeholder Review	Bi-Weekly	Video call	Lakshmi Lathish Pasupuleti & Lokasree Ranga Priya Duddu	Demo current progress and gather feedback on the prediction UX
5	Final Demo Rehearsal	Once	Video call	Lakshmi Lathish Pasupuleti & Lokasree Ranga Priya Duddu	Dry-run the full demo flow before final presentation
6	Code Review	Per Pull Request	GitHub	Lakshmi Lathish Pasupuleti & Lokasree Ranga Priya Duddu	Ensure code quality and consistency before merging to main

Communication Channels Summary

- **Real-time coordination:** WhatsApp group for daily standups and quick blockers.
- **Code collaboration:** GitHub repository (water_rising) for source control, issues and pull request reviews.
- **Structured updates:** weekly email summaries covering sprint progress against the backlog.
- **Stakeholder visibility:** bi-weekly video calls to demo working increments (EDA, model comparison, Flask app, deployment).
